PROPHETIC UPDATE

THE TWO ETERNAL CITIES TO COME

My beloved brethren, as we all know, the apostle Yochanan-John recorded for posterity in the book of the Revelation that the eternal dwelling place of Abba YAH and Messiah Yahushua is the Holy City, New Jerusalem. And yet according to the prophecy, there will not be a temple built in the New Holy City! As it is written, "...I saw no temple in it, for the Lord God Almighty and the Lamb are its temple." (Rev. 21:22).

The prophet Yechezqel-Ezekiel also received a revelation about a new city. But the city he foresaw *does* include a new temple. Selah. And as it is written, "And He (YAH) said to me, 'Son of man, this is the place of My throne and the place of the soles of My feet, where I will dwell in the midst of the children of Yisrael forever.'" (Eze 43:7). Clearly, the prophecy in Ezekiel reveals that Abba YAH and Messiah Yahushua will dwell in a new temple, located in a new city.

So then how is it, my brethren? Are there *two* 'New Jerusalems' prophesied to come?

To begin with, throughout his entire book, the Holy city revealed by Ezekiel is never referred to as the New Jerusalem. And secondly, the name of the new city is included in the prophecy - but it is not "New Jerusalem." Selah. It is written, "...the name of the city from that day shall be: 'YAHUWAH is There.'" (Eze. 48:5). So the name of the new city to be built in the "Middle East" will be "YAHUWAH Shammah," and not "Chadash Yerushalayim," or "New Jerusalem."

The Ezekiel prophecy specifies that this new capital city, which includes a new temple, will be built somewhere in the land originally allotted to the twelve tribes of Yisrael. And according to the measurements the prophet received, the new city in eretz Yisrael will be 122.5 miles long on each side, creating a 450-mile city square "circumference."

As it currently exists, the whole *state* of Ha Eretz is about 90 miles wide at its broadest point. So obviously, the Temple mount in the Old City alone, even if the ancient City of Dawid [the

original Jerusalem] is included, is not nearly large enough, and therefore cannot be the full location of the new city recorded in Ezekiel. In truth, the New Jerusalem seen in the book of Revelation cannot be the same city as the one specified in the Ezekiel prophecy, which will be built on the Arabian plate, and *will* include a new Temple building.

Finally my brethren, historically speaking, notice that America is indeed the land of "The New." For example, the name 'New' is a recurring theme across the nation, as in New England, New York, New Orleans, New Mexico, and so on; most names being taken from a city or state in the "Old World" of the Eastern Hemisphere. And needless to say, the U.S. is far and away the preeminent power in "The New World."

According to the Hebrew tongue as spoken in the state of Israel, and in keeping with the historical purpose of America, the Israeli school system teaches its students that the U.S. is "The land of the New Promise" or "The Land of the New Covenant." So then, will the New Jerusalem seen by Yochanan-John in the Revelation exist in a different time period than the new Holy city recorded in Ezekiel? "Mainstream" eschatology says an unequivocal yes.

But could it be that there will be *two* eternal cities, with one in the "Middle East" and one in the New Promised Land of America? Selah. Surely brethren, the "\$64,000,000 Question" among Hebrew Yisraelites for 2021 will be - is America the location of "The New Jerusalem?"
